- Git/GitHub
- VS code
- Android Studio
- Figma
- IntelliJ

SHANILKA SRIMAL

INFORMATION TECHNOLOGY UNDERGRADUATE

PROFILE

I am a detail-oriented and results-driven undergraduate specializing in Information Technology. Experienced in all stages of the development cycle for dynamic web projects. Well-versed in numerous programming languages including MERN Stack, Python, HTML5, CSS, PHP, OOP, JavaScript and MySQL. Strong background in project management and customer relations. Perceived as versatile, unconventional, and committed, I am looking for new and interesting programming challenges.

PROJECTS

Online Computer Store - MERN

Team Leader

- This project is developed for an online computer store to simplify and improve its operations. Built using the MERN stack, the system manages inventory, customer quotations, and orders efficiently. It was designed based on the client's requirements to ensure a user-friendly and scalable solution, with version control used throughout for effective collaboration.

Online market place - PHP,HTML,CSS

Individual

- A completely functional Online shopping web application, containing add new products, cart, filters and searching options. It was designed based on the client's requirements to ensure a user-friendly and scalable solution

Online book store - PHP,HTML,CSS

Individual

- This project is developed for a simple online book store. There are options for add books, filter and search the products

Skill Sharing Platform - Spring boot, React

Team member

- This project is a skill-sharing platform designed to connect learners and mentors in an interactive online community. Built with Spring Boot for robust backend services and React.js for a dynamic frontend, the platform enables users to share knowledge, book sessions, and track progress efficiently.

CERTIFICATES AND ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified Developer Professional
- Oracle Cloud Infrastructure 2025 DevOps Professional
- Introduction to Artificial Intelligence (AI)/ Machine Learning (ML)
- Certificate of Python for beginners by University of Moratuwa.
- Certificate of introduction to C by Sololearn.

ABOUT ME

Motivated Information Technology undergraduate with hands-on experience in full-stack web development, particularly using the MERN stack (MongoDB, Express.js, React.js, Node.js). Recently gained industrial exposure through working on real-world web applications and collaborative development environments. Experienced in developing scalable and user-friendly web systems including ERP System, e-commerce platforms and management systems. Passionate about learning modern technologies, solving real-world problems through software, and continuously improving development skills. Seeking opportunities to further enhance my practical experience in software development and contribute effectively to innovative projects.

WORK EXPERIENCE

CeylonX corporation | Jan 2026 - Mar 2026

Intern full stack developer

- Worked on major projects such as Celcius and Sparkle, contributing to both frontend and backend development using MERN stack (MongoDB, Express.js, React.js, Node.js)..
- Developed and improved responsive user interfaces using React.js and modern CSS frameworks.
- Implemented RESTful APIs and backend functionalities using Node.js and Express.js.
- Integrated frontend components with backend services and managed database operations using MongoDB.
- Participated in debugging, testing, and optimizing application performance.
- Collaborated with the development team using Git/GitHub for version control and project management.
- Assisted in implementing new features and resolving technical issues in ongoing projects.

EDUCATION

BSc. Special (Hons) in Information Technology

Sri Lanka Institute of Information Technology

- Specialization in Information Technology

Oct 2022 - Present

G.C.E. Advanced Level – Art Stream

T/Mahadiwulwewa National School

- ICT - C
- ECONOMICS - C
- MUSIC - A

2019-2021

SKILLS

- **Programming Languages:** (Java, JavaScript, PHP), Frontend Frameworks (React, Next.js), Backend Frameworks (Express.js, Spring Boot), Package Managers (Node.js), Databases (MongoDB, MySQL), CMS (Strapi), Styling Frameworks (Tailwind CSS, Bootstrap), Mobile Applications (Kotlin, React Native)
 - **Tools:** Git/GitHub, VS code, Android Studio, Figma, IntelliJ
 - **Languages:** English, Sinhala
-

PROJECTS

Sparkle - Real world ERP system using MERN Stack

jan 2026 - Mar 2026

A real-world Enterprise Resource Planning (ERP) system developed to streamline and manage multiple business operations within a single platform. The system includes modules such as inventory management, sales management, staff management, and supply management to improve operational efficiency and data management. Built using the MERN stack (MongoDB, Express.js, React.js, Node.js), the application provides a responsive user interface, secure backend APIs, and efficient database handling. Contributed to developing core features, integrating frontend components with backend services, and implementing dynamic data management functionalities.

Online Computer Store - E commerce platform using MERN Stack

jan 2025 - May 2025

This project is developed for an online computer store to simplify and improve its operations. Built using the MERN stack, the system manages inventory, customer quotations, and orders efficiently. It was designed based on the client's requirements to ensure a userfriendly and scalable solution, with version control used throughout for effective collaboration.

Ventus - Skill Sharing Platform using springboot

jan 2025 - May 2025

This project is a skill-sharing platform designed to connect learners and mentors in an interactive online community. Built with Spring Boot for robust backend services and React.js for a dynamic frontend, the platform enables users to share knowledge, book sessions, and track progress efficiently.

Magic book - Online Book Store using HTML, CSS, JS, PHP

jan 2025 - May 2025

This project is a skill-sharing platform designed to connect learners and mentors in an interactive online community. Built with Spring Boot for robust backend services and React.js for a dynamic frontend, the platform enables users to share knowledge, book sessions, and track progress efficiently.
